BEECHINOR LAND AND LIVESTOCK SALE BARN, BENTLEY, AB

FROM THE SHADES OF FALL FEMALE SALE GROUP

shades of fall female sale

On behalf of the entire sale group we would like to welcome you to the 3rd edition of Shades of Fall. As in previous sales, there is a diverse offering of Full Feckvieh, Red and Black purebreds. Simmentals in every shade. We at Beechinor Land & Livestock are once again excited to be joined by our friends at Applecross, Century and Red Top. We have had personal and business relationships with each of these programs for many years and are so grateful for the chance to partner with each of them for this event.

The numbers in the sale continue to build without sacrificing the quality of the offering. Each sale partner has dug deep into their respective heifer groups to bring an impressive set of bred females. You will see some truly impressive features in each set of heifers that cause some pain to sell out of the consigners program. We thank them for their commitment and vision to grow this great event. Each program has similar mindsets and goals on developing and strengthening their individual cow herds based on maternally functional cattle through a focus on strong cow families. Heifers are carrying services to proven calving ease bulls, including some very exciting new herd bulls that will give the new owners a quick return on investment.

This time last year, I wrote in amazement about record prices being paid for cattle and in the last 12 months the value has only seemed to go up every month. Just last night commercial bred heifers topped at \$10000 in a central Alberta sale. Wow! Just imagine if in another year we reminisce about thinking things couldn't get any better than this market is right now? Exciting times to say the least. Optimism remains high and the cow/calf industry remains resilient. Cattle inventories remain at historic lows and consumers continue to demand the quality product we produce. I truly believe the future remains bright for primary producers and investment in quality females will pay huge dividends going forward.

This year we have Atlas Livestock Marketing helping with the sale. This new company is led by Cody Coupland, who has been instrumental in assisting us, developing the vision into the successful and enjoyable event it has grown into. This change will provide consistency through a similar crew with an exciting new look and ideas. The sale will be broadcast online through DLMS for those that are not able to attend in person.

We strongly encourage everyone to come take in the three exciting Simmental sales on this weekend. Thursday evening at Black Gold, Friday evening at Anchor D and Saturday afternoon at Beechinor Land & Livestock. It is a weekend full of great cattle and great people. Back by popular demand, join us for lunch prior to the sale prepared by our friends, the Repka's, from JNR Farms. We look forward to visiting with you sale day!

Sincerely,
The Shades of the Fall Sale Group

FROM THE ATLAS TEAM *Atlas Marketing Team*

Welcome to the Third Annual Shades of Fall Simmental Female Sale, held just southwest of Bentley, Alberta at the Beechinor Land & Livestock Sale Facility.

The third annual sale may come with a fresh, revamped look as we move forward with Atlas Livestock Marketing, but the foundation of what has made Shades of Fall successful remains the same. We are excited to be back for year three alongside this exceptional group of reputable seed stock breeders.

Shades of Fall started as a vision to become one of the elite Simmental female sales of the fall, and I would say that in just three short years, this sale has certainly earned that status.

Beechinor Land & Livestock, Red Top Livestock, Applecross Cattle and Century Simmentals have once again come together to assemble an incredibly deep set of bred females. Four breeders with like-minded visions for success have once again held nothing back. Since year one, they have been committed to offering their very best to this sale, and this year is no different.

As you study this year's offering, you'll find big, powerful future herd matrons backed by years of progressive genetic matings and cow families built for longevity, productivity and profitability. These are females that offer the kind of quality and genetic potential that can make a lasting impact in any program.

There is a great deal of depth consistency throughout the sale, with cattle selected for their overall quality, genetic potential, soundness and the ability to contribute to a program for years to come. Whether you are looking to add a new foundation female, build around a proven cow family, find your next donor prospect or simply add some quality females to the pasture, there are numerous lots that deserve serious consideration.

Thanksgiving is quickly becoming one of the most exciting Simmental weekends of the fall, make sure Shades of Fall is on your calendar.

Please join us **October 10 at 1:00 pm** just southwest of Bentley at the Beechinor Land & Livestock Sale Facility.

If you are unable to attend in person, please don't hesitate to reach out to any member of the Atlas Livestock Marketing team. We would be happy to discuss the offering, answer questions and assist you to find the females that best fit your program

We look forward to seeing you!

BEE BATTLE CRY 282B X MI MS DALLAS 39D

BLL DIVA 224K

SIBELLE SUGAR RAY 25F X BEE COUTURE 663D

- Prima Donna blends power and substance with calving ease and femininity, a versatile female with lots of breeding options.
- Her dam is a full sibling to BLL Rumble and is broody young cow whose production record is getting noticed.
- Her Bourbon Street bull calf is easy to pick out in one of our strongest groups of bull calves.
- Carrying an exciting exclusive early service to JNR Quantum, whose first bulls averaged over \$26000 at JNR this past spring.

BEE BATTLE CRY 282B X MI MS DALLAS 39D

BLL CINDY-LOU WHO 300K

FGAF ELECTRIC AVENUE 140E X BLL SUGARBOO 06H

- We originally planned on keeping one of these polled Battle Cry daughters for ourselves but we relented and are offering both feature females.
- Martha May has attractive build with a wide top, big hip consistent with her top cow family.
- Great granddam Blair has calved first cycle for 11 consecutive years and registered each calf.
- Martha May's dam is a tidy uddered young cow that has a personal favourite Crimson Tide heifer at side.
- Her early season calf by the homo polled Pilot, should be intriguing.

- A high quality Viper daughter that is short marked with strong muscling and big barrel contributing to a robust build.
- These first 4 heifers are all mothered by first calvers, building our excitement for the future.
- A great opportunity to add a female with a proven pedigree while own daughters of Viper and Magnum still exist.
- Both Viper and Magnum have been producing productive daughters for years.
- Viperess dam is a dark red heavily pigmented female backed by a proven maternal line with good longevity.
- Bred to our new homo polled calving ease bull Nuclear

GIBBONS BLUME

SHAWACRES JAHARI 50L X GIBBONS BELLE

- A rare direct daughter of Magnum that is loaded with potential.
- Powerful, dark red, heavy haired, long bodied, wide topped, big butted and a docile demeanor.
- Blume was purchased with Stout Brothers as a mature cow a couple years ago but wasted no time making an impact with exciting embryo calves.
- Both Stouts and I have purchased daughters of Blume, which I believe is a true testament to our belief in her.
- We've only shared embryos with 2 fellow breeders and both retained sons for their own use from the resulting calves.
- Bloom 504M's Quantum pregnancy is a blend of power and calving ease with dark red and lots of hair.

NON DILUTOR. AI'D 3/22/2026 TO JNR QUANTUM (SAFE),

Double Bar D Malone 39K - Sire of Lot 6

Starwest Pol Hope - Dam of Lot 6

- A correct made Malone daughter that should mature into an attractive well muscled brood cow.
- Her dam is a perfect uddered, pretty Kalibre daughter that passes on good growth.
- Same cow family as Starwest Pol Bessie, dam of Voltage, Bourbon Street and Cece.
- We are really impressed with the development of her service sire Keet's Nuclear.
- He is excellent footed, dark dark red, homo polled, docile, good muscle shape and from a super cow that's a proven producer of calving ease bulls.

MTV BARB 5H

BEE NORSE 46D X MTV NOREEN

- Rounding out our fleck offering is this feature female that will be the first Crimson Tide to sell.
- Crimson Tide was lead off at the World Sale a couple years back with interest selling to Johnson Ranching.
- With him being slow to collect quality semen at the start of his stud stay and then sale prep, we only had a couple calves last year.
- We have an exciting selection on the ground this year and they look full of potential with lots of consistency.
- Marble is correctly made and was a fun one to picture as she just seems to know how to show off.
- Her dam has similar eye appeal and knows how to get people's attention with her huge barrel and correct udder.
- We bought MTV Barb a couple years ago when Nickels were dispersing their fleck cows and jumped at the opportunity to add a mature female of this quality.
- Enough good things can't be said about her service sire Nuclear and we think he has a ton of potential to raise the right type of sons and daughters

- Twin sisters that started out small but quickly bloomed into a pair of eye catching powerful cow prospects.
- There dam was a feature of the Rust Mountain reduction sale that we teamed up with Ferme Gagnon and Beechinor Bros on.
- The original Yara cow has a special place for us as a lead off and high selling lot at the inaugural FNL sale.
- Yara stamps a perfect udder on her progeny and unsurprisingly both Mara and Marla are dropping great ones.
- Mara 481M is carrying a early service to Perks Red Wolf, the blaze faced easy calving sire of BEE Alpha 915J.
- Marla 842M is bred to our exciting homo polled fleck Keet's Nuclear that we eagerly wait to see what he does on red females.
- Owned with Ferme Gagnon and Beechinor Bros.

HETEROZYGOUS POLLED. DILUTOR CARRIER. FULL FLECKVIEH.

Wynonna already moves through our pastures like the big barreled, broody cow that herds are built on. Her grand dam, Virginia Ms Zillow was selected from the Satchwell's as the high selling fullblood at the 2013 Cow-A-Rama sale. Her most prominent daughter is Applecross Willow, who is just hitting her stride at age 5 with a really cool set of twin heifers at side this year. Willow gave us Applecross Whitney as a first calf heifer - and we were so impressed we AI'd Willow back the same way for 'Wynonna'. Whitney has quickly become one of our top young cows. As a first calf heifer, Whitney just produced our high selling bull at Red Deer 2026 in APLX Junior/Juror that was selected by Semex Canada and topped the sale. Jeanne also vetoed, Whitney's 2026 heifer calf, so with plenty of cow family to work from, we thought we could offer up Wynonna. She is the definition of Fleckvieh - with capacity and mass, backed by a proven cow family. Opportunity awaits at Shades 2026. Wynonna. Why not me.

HETEROZYGOUS POLLED. DILUTOR FREE. FULL FLECKVIEH
The aptly named Dazzle is a dark red, large capacity beauty that consistently turns lots of heads! As the full sister to 'Diva' who was selected by Bovey Farms in Ontario at Shades 2025, Dazzle is broody, thick and consistent to her genetic lines. Her dam, Applecross Destiny, is a full sibling to Applecross Daphne who produced two elite daughters of her own in Dana (Shades 2024) and Deirdre (Equation 2023), that were both selected for export by Jeff Knox, Queensland, Australia. Representing seven generations of females that have walked here at Applecross, Dazzle exemplifies what our program is all about. We are confident that Dazzle will mature into a front pasture female with endless breeding options!

HETEROZYGOUS POLLED. DILUTOR FREE. FULL FLECKVIEH.

Lila is a very long bodied heifer with a little lighter colour. If you are looking for top performing consistency in a cow family; Lila has it. Her dam, Applecross Frauline 4D has produced seven straight heifers for us, 2 of which we have retained, and 5 we have now offered at auction. Lone Stone, Alliance Simmentals, DJ Farms and Maxwell Simmentals have all acquired daughters. They say the sign of a good cow is that she produces awesome progeny no matter the sire, and that has held true with Frauline. Two hallmarks of this cow family are massive volume and tidy udders that age very well - both traits that step from Lila's grand dam, DLD Lady Western 48R. With a little different genetic combination in just a March bred heifer that will calve out early, Lila combines a proven cow family and very little guess work.

HOMOZYGOUS POLLED. DILUTOR FREE. FULL FLECKVIEH.

Audrey is another great example of the consistency of type that her sire, BLL Tombstone 223K is producing in his progeny. Tombstone has developed into exactly the bull we envisioned when we first noticed him during a summer pasture tour at Beech-inor's, when he immediately caught our eye from across the field. Even as a young calf, he exhibited outstanding presence and eye appeal, combined in a smooth muscular package. We selected Audrey's dam Keet's Princess Grace at the 2020 Equation sale, and she has developed into an excellent producer for us, with five daughters in five years; three of which we retained plus Applecross Abigail, who sold at Equation 2023 to Steve Jensen of Kansas, and now 'Audrey' at Shades 2026. Audrey brings a little more frame and capacity, while being very feminine. Carrying a little different pedigree, Audrey presents endless breeding opportunities.

HOMOZYGOUS POLLED. DILUTOR FREE. FULL FLECKVIEH.

Sierra offers up a stunning package in a moderate frame. She represents a somewhat outcross polled pedigree, in Great Guns Wyatt and JB CDN Hennessy, who is known as a female maker and was a highly maternal heifer bull. Sierra is the 5th generation of our Dora Lee Jewel cow family to walk here, and descends from our popular Applecross Sapphire cow. Sapphire's capacity and barrel was admired by all who saw her, and not only produced APLX Coach 37J that was our high seller at our 2022 Bull sale, but also has four daughters working here. Liver red, heavily pigmented, with a very nice udder starting to form, look for Sierra's unique combination of eye-appeal and balanced genetic potential to translate into a unique stylish female.

HETEROZYGOUS POLLED. DILUTOR CARRIER. FULL FLECKVIEH.

Faydra is the first of our two Journey daughters to be offered at Shades 2026. We selected Virginia Journey, as the high seller at Bull Spectrum 2023 for \$30,000. We were intrigued by the Synergy-Radison cross, and had followed the Willow's Jade cow family for many, many years. His progeny have been very impressive, however we unfortunately lost him after three breeding seasons (with no frozen in reserve), so we don't expect to offer many more daughters next year. Faydra is the 4th generation of our Anchor D Fergus cow family - who all combined performance and capacity in nice feminine packages. Opportunity knocks with this broody heifer from a strong cow family, and proven genetic lines.

HETEROZYGOUS POLLED. DILUTOR FREE. FULL FLECKVIEH.

The second of our two Journey daughters on offer is Beyonce, a tidy heifer that should develop into a no-nonsense type cow. Journey's progeny often tend to arrive similarly stamped 'Simmental brown', while also carrying capacity, broodiness, and nicely developing udders that also represent the breed! On the maternal side, Beyonce is out of Applecross Bianca, a dark red, star-headed cow who was Dennis's favourite as an open heifer. She produced very well for us; including a daughter, Brienne (offered at Equation 2019) and herd bulls Denzel (Red Deer 2021) and Casino (Red Deer 2023). Proven Old-school Fleckvieh genetics dominate the dam side of the pedigree, including Seldom, C&B Western, King Arthur and Broadway. An intriguing blend of old and new, Beyonce is a well put-together female, with lots of pigment, that will be a great addition to any herd.

457N AND 511N ARE POLLED

- Two of our favourites that are absolute standout heifers out of our and BLL's donor Cece 952G
- 457M sired by Malone and 511N by Gold Trigger
- Cece's maternal and paternal brothers Voltage, Bourbon Street and Creed seem to be gaining popularity every year, with high selling calves and semen sales
- Dam Cece needs no introduction as she's had 4 daughters make the sale ring the last three years, these two daughters I feel are her strongest yet
- I kept going back and forth all summer on which of these two I'd choose, two different style heifers but equally impressive
- Maternal brother was the talk of our bull pen this spring, a homo polled powerhouse who was our high seller going to Stone Simmentals
- With 457M carrying service to Independence and 511N to Panther both are incredibly intriguing matings

Maternal Grand Dam of Lot 39

POLLED

- Here's a heifer that's as dark as you can make them
- Redwood stamps his calves with that sought after almost purple red
- Dam BLL 60H a daughter of the illustrious 176Y cow who has been an impressive donor for BLL and RTL
- ¾ sisters out of ETZ 176Y sold for 20,000 last year in Shades for RTL/BLL
- Maternal sister selling in last years shades to Chittick Family Farms
- Bred to our exciting new heifer bull Oakview Nirvana 0136N. It was an easy decision to purchase Nirvana with his small head, narrow shoulder and square foot and backed by an impressive dam. We eagerly await his first calves

Exposed to Oakview Nirvana 0136N March 22-May 20
Observed bred April 8th(ultrasound confirmed pregnant to that cycle in vet's opinion)

POLLED

- A cherry red Electric Ave daughter backed by the Antebellum cow family
- Electric Ave noted for his incredible feet, has put many impressive offspring through the ring for BLL, semen being limited chances to buy daughters will be more and more rare
- Granddaughter of the illustrious JB Antebellum cow, regarded as one of the top cows in the JB program
- 516N has a impressive maternal sister sired by Champs Bravo who is maintaining excellent condition with her first calf at foot who is equally impressive
- Exciting service to the homo polled Rafter 4T independence who has an impressive first calf crop

TERMS & CONDITIONS

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Atlas Livestock Marketing reserves the right to charge interest at a rate of 2% per month on overdue accounts. The right of property shall not pass until after settlement is made. Atlas Livestock Marketing, reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Atlas Livestock Marketing, reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. All settlements must be made with the clerks of the sale before any cattle will be released. Atlas Livestock Marketing and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE - Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS - There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Atlas Livestock Marketing, and catalogue designers/ producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS - All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recordation certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price.
EXCEPTION TO GUARANTEE - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Atlas Livestock Marketing, assumes no responsibility for the health status of any animal in the sale.

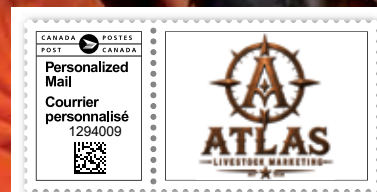

EMBRYO & SEMEN - Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

Atlas Livestock Marketing, IS AGENT ONLY - It is to be clearly understood that Atlas Livestock Marketing, is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Atlas Livestock Marketing, assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.
