SERVICE SIRE TO ALL PUREBRED HEIFERS

ODO MAVERICK 33M

SERVICE SIRE TO ALL THE FULLBLOOD HEIFERS

On behalf of the team at Atlas Livestock Marketing and Ken, we would like to welcome you to the Westgold Herd Reduction Sale, taking place November 23rd at Vermilion Livestock Exchange in Vermilion, Alberta.

Ken has assembled a strong offering of cattle that will provide buyers with an opportunity to add some proven, productive genetics to their programs. The offering includes 41 bred heifers, representing a complete dispersal of the bred heifer pen. Herd reduction sales are always exciting, as they give breeders the chance to access females and genetics that may not otherwise be available.

There are some true features throughout this offering, with Lots 4 & 6 being a couple that certainly deserve your attention. During my summer tour with Ken, the 17J cow may have been my favourite female in the entire herd. After seeing the outstanding sale feature she has produced, my appreciation for that cow only grew. She's certainly the kind that makes you take notice!

Also included are two exciting flush opportunities that deserve a serious look, including one on the homozygous polled female that topped the Rich Mc Farms sale at $52,000. Opportunities to access genetics of this calibre don't come along every day, and these are two lots worth studying closely.

With the cattle industry enjoying tremendous momentum and quality breeding stock continuing to be in strong demand, there has never been a better time to invest in productive, proven genetics that can move your program forward.

We encourage you to study the offering, visit with Ken about the cattle, and make plans to join us November 23rd in Vermilion. Whether you're looking for your next foundation female or an exciting genetic opportunity, there is plenty here worth your consideration.

From all of us at Atlas Livestock Marketing, we look forward to visiting with you sale day!
